

# Q-SERIES™

High Volume, Low Noise

## The strong, silent type.

Meet the workhorse that doesn't draw attention to itself. The powerful Blendtec Q-Series delivers speed, performance and consistency every time.

## Speaks softly, carries a big motor.

The Blendtec Q-Series is quieter than similar blenders but is packed with industry-leading performance. Which means fewer limits to profitable menu offerings.

## Noise? What noise?

Why drown out the ambience with an obnoxious blender?

The Q-Series is quieter to operate, so your customers can enjoy the atmosphere that draws them to your shop in the first place.

## Power, speed, consistency.

A powerful motor and simple, one-touch operation mean the Q-Series serves up recipes more quickly, easily and consistently than competitors' blenders.

## Safety first.

An optional safety feature automatically shuts off the blender when the sound enclosure is raised. So your employees stay safe, and your business day goes off without a hitch.

## Standard Features

### POWER

Volts	Amps	Watts
100	13, 15	1300, 1500
120	13, 15	1560, 1800
220–240	6.5, 9	1560, 2160

### CONTROL

- No-tend touchpad controls
- Blue LCD display
- 30 preprogrammed blend cycles
- Blend cycles customizable using a computer

### QUIET

- Fully enclosed, easy-to-clean blending station
- Noticeably quieter than competing blenders

### VERSATILITY

- Compatible with Blendtec's patented FourSide™, WildSide® and Twister™ jars—including colored jars

## Additional Options

### COUNTERTOP

- Can be used right out of the box with the included housing

### IN COUNTER

- Can also be installed directly into your counter-top

## More Powerful Motors

Blendtec uses the most powerful motors in the commercial blending industry. For businesses, that means the smoothest, most consistent blends available.

## Optional WildSide® Jar

The WildSide jar's patented fifth side shifts the blending vortex to achieve even thicker, faster blends—eliminating the need for a messy plunger.

## Stainless Steel Wingtip Blade

The ultrahard stainless steel blade is cold-forged and tuned for heavy use. So it's stronger and lasts longer than lesser blades. Which is why it's warranted for the life of the jar.

#### DIMENSIONS

W 9.0" (22.9 cm)  
D 9.0" (22.9 cm)  
H 18.7" (47.5 cm)
